The Office of Management and Budget's statistical area delineations for metropolitan, micropolitan, and combined statistical areas, as well as metropolitan divisions, are those issued by that agency in March 2020. For CBSAs and CSAs in the state of Connecticut, the populations reflect the aggregation of minor civil divisions (MCDs) to the January 1, 2021 county boundaries. All other geographic boundaries for the 2022 population estimates series are as of January 1, 2022.
